Comments

- No candidates passed the examination.
- Lowest mark 2% and the highest mark 37%.
- Q1 - Ventilation practice and principles, well answered.
- Q2 – Fan pressure calc's and refrigeration, average.
- Q3 – Heat, average.
- Q4 – Rock engineering calc's, poorly answered.

Comments

- Q5 – Mine Economics, poorly answered. Very few candidates attempted to answer this question.
- Average mark obtained for the examination is 19%.
- It is clearly evident that the candidates lacked the knowledge to answer the paper and little preparation/studying was done.
- Tutors commended us on a “fair” paper!
