Comments

- Question 1 Safety and Sustainable development**
- Question 2 Occupational Hygiene**
- Question 3 Rock Engineering**
- Question 4 Mineral Resource Management**
- Question 5 Infrastructure - Conveying**
- Question 6 Coal Processing**

Only repeat question on Risk assessment well answered. Understanding of topic poor. Nobody could answer MOSH question.
 Knowledge of subject matter not to standard. Students does not understand basic formula and calculations
 Theory of rock mechanics not understood. Every student has basic knowledge of safety factor
 Lack strategy and holistic view - lack of exposure in service departments evident
 Basic knowledge of belt conveyors at this level is disappointing
 Very badly answered. It is clear that the students has no exposure to plant and beneficiation processes.

GENERAL

**1 pass, students lack holistic view and strategy .
 It is evident from the exam that students lack exposure to service departments.**
