Comments	
Question 1 Safety management and sustainable development	Not badly answered, lack holistic view and systems approach
Question 2 Occupational Hygiene	Knowledge of subject matter not to standard not even definitions are not understood
Question 3 Rock Engineering	Calculations not well understood, general knowledge of subject matter poor
Question 4 Mineral resource management	Lack strategy and holistic view - lack of exposure
Question 5 Infrastructure - Conveying	Candidates understanding of this is a worry.
Question 6 Coal processing	This is one of the main component of the coal business and people still do not grasp the basics Difficult to asses as the one student did well and the other bad.

GENERAL
1 pass

Difficult to comment as only two students wrote, the stats does not reflect anything
